

# Anti-Microbial Hand Sanitizer

## 24 Hour Protection Hand Sanitizer

CASSA 999 Anti-Microbial 24 Hour Hand Sanitizer is an Alcohol Free alternative that Kills 99.99% of Harmful Germs and Bacteria on the hands for up to 24 Hours. Our Enzymatic Formula will remain active on the hands for up to 24 hour (Scientifically Proven) and will continue to protect during normal activity and hand washing. Most Hand Sanitizers contain Alcohol and evaporate within short periods of time, our Enzymatic Sanitizer forms a Anti-microbial Nano Barrier on the surface of the hands that keeps them protected for up to 24 hours. This Alcohol Free product will not dry and damage your hands and contains moisturizers such as Vitamin E and Aloe Vera that nourish the skin.
