CASSA Anti-Microbial 24 Hour Protection Hand Sanitizer

Cassa Bio Tec 999 Formulated Advanced Antibacterial Hand Sanitizer

24 Hour Protection Alcohol Free Formula

Certain bacteria and viruses can remain active on your hands for up to 3 hours. During this time bacteria can spread onto everything we touch. This is dangerous as germs and microbes will multiply and spread. CASSA 999 Formula Hand Sanitizer Kills 99.99% of Harmful Germs and Bacteria on the hands. Scientifically proven to provide ongoing protection for hands for up to 24 hours after application.

CASSA 999 Formula contains soothing Aloe Vera Gel and nourishing Vitamin E which makes it gentle on the hands and beneficial to the skin. Apply a small amount of the sanitizing foam to your hand, rub your hands together, covering all surfaces of both hands, including between your fingers and up around your fingertips and nails. Rub hands together for 30 seconds to allow your hands to completely absorb the CASSA Anti-Microbial Hand Sanitizer until completely dry.

CASSA Anti-Microbial 777 Enzymatic Sanitizing Spray

Commercial & Domestic Hospital Grade Disinfectant Solution

Protects Surfaces for up to 30 Days

When CASSA's 777 Enzymatic Formula comes into contact with COVID-19 it targets, engulfs and absorbs the virus destroying its protein cell wall - killing it. Our 777 Formula has been scientifically proven to kill Coronavirus.

CASSA Anti-Microbial 777 Formula Enzymatic Sanitizer can be sprayed or misted onto any surface including glass, ceramic and metallic surfaces - rendering the surface 99.99% resistant to Superbugs like S. aureus, E.coli, P. aeruginosa, P. vulgaris, Salmonella and Coronavirus (COVID-19). CASSA 777 Sanitizing Solution effectively Kills 99.99% of Harmful Germs and Bacteria on contact, including Coronavirus, and creates a lasting anti-microbial nano barrier that continues to Protect Surfaces for up to 30 days (Scientifically Proven).

This Hospital Grade Disinfectant is a all-in-one solution broad spectrum response to hazardous contamination. Proven to be non-mutagenic and non-carcinogenic this product is safe for humans, animals and plants. Its low corrosive qualities will not damage common surfaces making it vastly versatile across all applications. Within minutes biological problems and chemical toxins are disintegrated leaving no harmful residue. This Broad Spectrum Sanitizing Solution is Landfill and Sewer safe.

- Kills 99.99% of Harmful Germs and Bacteria
- Scientifically proven to kill Coronavirus (COVID-19)
- Effective Within Seconds (Kills Coronavirus in seconds)
- Alcohol Free Broad-Spectrum Sanitizer & Deodorizer
- Neutralizes Chemical Agents & Odors on a Molecular Level
- Creates 30 day lasting Anti-microbial Barrier on Surfaces
- Can be used as a Liquid, Spray or Aerosol
- Safe on Commercial, Industrial & Household Surfaces
- Eliminates the need for Hazardous Waste Removal & Storage
- Ideal for use in Commercial Misting and Spraying
